

### Upcoming Session Dates for 2016-17

Date	Session Title	Description
24/08/2016	"Breathe, damn you, breathe!"	Management of patients in the pre-hospital care setting with a focus on cardiac arrest and breathing problems. Skills stations followed by moulages.
28/09/2016	"Broken, needs mending"	Pre-Hospital Care Course. Session title Management of patients in the pre-hospital care setting with a focus on fractures and associated haemorrhage. Skills stations followed by moulages.
02/11/2016	"Help! It might be broken!"	Management of patients in the pre-hospital care setting with a focus on breaks and dislocations. Skills stations followed by moulages.
07/12/2016	"Putting it all together."	A consolidation session at the half-way point. This is an entirely moulage-based session to bring together everything that has been taught to-date. For those new to the course, teaching will be provided throughout the moulages.
18/01/2017	"Boom, boom, shake the room."	Management of multiple casualties in the pre-hospital care setting. The principles of triage will be taught, followed by a number of moulages to put this into practice.
08/02/2017	"Oh the weather outside is frightful."	Focusing on the challenges of working in adverse and unfamiliar environments. Skills stations followed by moulages.
15/03/2017	"Small patient, big sick."	A session dedicated to the management of paediatric patients in the pre-hospital environment. Skills stations followed by moulages.
19/04/2017	"A series of unexpected events."	A final consolidation session to put everything learnt throughout the course into practice through a number of moulages.

**All sessions will take place from 17:45 – 20:30 at the Highland Medical Education Centre, Centre for Health Sciences, Old Perth Road, Inverness, IV2 3JH.**
